

Personalized Learning Minutes  
July 2014

Personalized Learning- Google Hangout

Attended: Jones, McInnis, Coon, Journigan, Harris, Foggie, LeGrone and Jordan

Technology and Learning

Technology needs to be apart of us not apart from us

For the first time there are more devices in the world then there are people

Use experts in the classroom virtually

Getting comfortable with one thing and then do it with you students, then add another thing.

Use Twitter as a resource for other experts or educators who are willing to help  
Ed Camps- unconference- you are the expert.

How do we get by in, and accountable

Doing a data notebook- in their own words for the younger

how do you keep up with it- technology may save time but needs a lot of front loading

Net Ref- internet security-

Guided Access locks to an APP

Take time to explain digital citizenship

Personal reflection the Why strategy

digital portfolio

Evernote

Google classroom

Teacher Buy in

We have to model-

Change the culture
